Science is making rapid progress in unlocking Nature's basic secrets, especially in the area of plants and foodstuffs, which supply more than just vitamins and minerals. One promising field is the study of the variety of spices used for centuries to add zest to a wide range of foods. Interestingly, long before the advent of refrigeration, it was recognized that herbs and culinary spices could slow food spoilage; natural antimicrobial principles were obviously at work.

Food scientists have become more interested in how to tap the innate properties found in essential oils and aromatic plants. Recent studies have focused on the effects of spices and associated oils on foodborne organisms in the context of food safety and spoilage. Attempts have been made to identify the active components of essential oils from spices, among them, oregano.

By emulsifying oregano extracts, the effective surface area of the oil is dramatically increased.

(800) 231-5777
Analysis revealed two phenolic compounds, thymol and carvacrol, as primary constituents of oregano extracts, and their antioxidant properties were reported.

Biotics Research Corporation is widely recognized for its emulsified fat-soluble nutrients and other lipids, microemulsified with the practical objective of increased absorption and bioavailability. This technology has now been applied to the oil of oregano.

By emulsifying oregano extracts, the effective surface area of the oil is dramatically increased. An additional step was to apply a gradual release mechanism to A.D.P.®, assuring a slow release throughout the digestive tract. The combined effect of emulsification and gradual release optimizes intestinal exposure to the essential oil.

* Daily Value not established

Other ingredients: Cellulose, modified cellulose gum, potassium sorbate, stearic acid (vegetable source), silica, water and gum arabic.

A.D.P.® supplies oregano oil which is emulsified and processed in a gradual release form for optimal effectiveness. This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

Patent #5,955,086

This product is gluten, dairy and GMO free.

RECOMMENDATION: One (1) tablet with meals and at bedtime as a dietary supplement or as otherwise directed by a healthcare professional.

CAUTION: Not recommended for pregnant or lactating women.

KEEP OUT OF REACH OF CHILDREN

Store in a cool, dry area.
Sealed with an imprinted safety seal for your protection.

Product # 1101 Rev. 11/17
