Utilizing “The Best of Science and Nature” to Create Superior Nutritional Supplements

Red Yeast Rice
Because Healthy Aging Requires Healthy Arteries and a Healthy Heart

“Red Yeast Rice has been extensively studied and its benefits have been reported in the Annals of Internal Medicine. It is part of my recommended protocol to support cardiovascular health.”
- Mark Houston, MD, MS, ABAARM, FACP, FAHA, Associate Clinical Professor of Medicine at the Vanderbilt School of Medicine, Director of the Hypertension Institute at St. Thomas Hospital, Nashville, TN

The yeast Monascus purpureus grown on rice is known in the nutritional industry as Red Yeast Rice (RYR). In many Asian countries it is a dietary staple. The major components of RYR are the monacolins. In Traditional Chinese medicine (TCM), Red Yeast Rice has been utilized for thousands of years. To ensure safety, Biotics Research’s Red Yeast Rice is screened for the mycotoxin citrin. Interestingly, the yeast in Red Yeast Rice is inactive.

Red Yeast Rice (product #8000) is available as a stand alone product, but may also be used in conjunction with Lipid-Sirt® and Niacin 100™.

Cautionary Note: This product should not be taken by those having kidney or liver disease. Discontinue use if any adverse reactions occur including muscle pain, weakness or rash. Do not take this product if you are pregnant or lactating. Caution is advised for those with bleeding disorders, or those taking drugs that may increase the risk of bleeding, and in those taking more than 2.4 g daily for periods longer than 12 weeks.
