

# Bio-Anabolic Pack™

## Enhanced Formulation

The sports world is flooded with products intended to enhance athletic performance and help support the restorative process. Everyone from professional athletes to weekend warriors, to the average Joe or Joanne whose workout regime is part of a general wellness program, wants to achieve their personal training and athletic goals.

**Bio-Anabolic Pack™** represent a breakthrough in athletic supplementation. **Bio-Anabolic Pack™** supplies a comprehensive array of nutrients in a convenient packet to facilitate ease of use. Each pack supplies the full complement of B complex vitamins with vitamin C to support the ability to respond to physical stress. Included are the active, phosphorylated forms of vitamins B2 (riboflavin-5-phosphate) and B6 (pyridoxal-5-phosphate), along with benfotiamine, a lipid soluble form of vitamin B1. Benfotiamine, which is naturally occurring in the Allium family of vegetable (think onions, garlic and leeks), when taken orally, increases blood and tissue thiamine levels to a much higher degree than water soluble thiamin. Targeted, specific gland and organ support is provided via Biotics Research's proprietary cytozyme glandular tissue concentrates including neonatal bovine adrenal complex, liver, thymus and spleen, along with ovine pituitary/hypothalamus complex. Digestive support includes enzymes, probiotics, organic beet leaf powder and chlorophyllins. Finally, amino acids, gamma oryzanol, FRAC® (an original, proprietary Biotics Research compound), and emulsified coenzyme Q10 (another Biotics Research first) round out the **Bio-Anabolic Pack™** formula.

To place your order for **Bio-Anabolic Pack™** or for additional information please contact us below.

Published research (Chiropractic Sports Medicine. 1897 Vol.1, No.2) of college athletes who were not previously taking supplements consumed 2 packs daily. The supplemented group showed an increase in muscle girth and decreases in body fat compared to the unsupplemented control group. Additionally, subjective responses from supplemented subjects engaged in weight training suggested an increase in strength, as compared to controls.

### Supplement Facts

Serving Size: 1 Pack

	Amount Per Serving	% Daily Value		Amount Per Serving	% Daily Value
Vitamin C (as ascorbic acid, calcium and magnesium ascorbate)	220 mg	367%	Lactase (100 FCC units)	1,000 mcg	*
Thiamin (B1) (as benfotiamine and cocarboxylase chloride)	25 mg	1,667%	Superoxide Dismutase (from vegetable culture††)	20 mcg	*
Riboflavin (as riboflavin-5-phosphate)	25 mg	1,470%	Catalase (from vegetable culture††)	20 mcg	*
Niacin (as niacinamide)	25 mg	125%	FRAC® (from rice)†	25 mg	*
Vitamin B6 (as pyridoxal-5-phosphate)	25 mg	1,250%	Gamma Oryzanol (from rice)	10 mg	*
Folate (as calcium folinate)	400 mcg	100%	Octacosanol (from rice)	2,000 mcg	*
Vitamin B12 (as methylcobalamin)	10 mcg	167%	Coenzyme Q10 (emulsified)	5,000 mcg	*
Biotin	300 mcg	100%	Proprietary Blend	1,297 mg	*
Pantothenic Acid (as calcium pantothenate)	25 mg	250%	Whey Protein Hydrolysate (from milk)		*
Choline (as choline bitartrate)	25 mg	*	L-Ornithine HCl		*
Inositol (from rice)	25 mg	*	L-Arginine HCl		*
Neonatal Liver Concentrate (bovine)	30 mg	*	Chlorophyllin (spinach and chlorophyllin)		*
Neonatal Thymus Concentrate (bovine)	20 mg	*	L-Phenylalanine		*
Neonatal Adrenal Complex Concentrate (bovine)	20 mg	*	L-Lysine HCl		*
Neonatal Spleen Concentrate (bovine)	20 mg	*	L-Methionine		*
Lamb Pituitary/Hypothalamus Concentrate (ovine)	20 mg	*	Lactobacillus acidophilus (DDS-1)		*
Pancrelipase (porcine)	50 mg	*	Beet Leaf		*
			Bifidobacterium bifidum		*
			L-Asparagine		*
			L-Citrulline		*
